**Spirit** – The first rung of the ladder. This can have different meanings to each of us. It could be about nature, relationships, or just taking time to stop and breathe. Nurturing the spirit helps me to define what I want from life, what my reason for being is (My Why). Ultimately, this is also about realizing there is something greater than me in the universe. My Spirit helps me to know my soul and thus know who I am.

It makes sense that, in order to carry out the soul's desires to the fullest, the vessel must be in optimal working condition. My family, the people that share the same values with me, and those that I enjoy hanging with and working with. As a team, we are able to share a safe space in which we can be open with one another about anything and everything.

A craft enables you to learn as you teach, to heal as you go – we teach what we need to learn! Craft provides the means to continue growing and advancing. Craft is a means of expressing your passion. Only when you are working within that passion can you say you've found your craft.

And when I am making a positive difference, I am building and Living My Legacy, Now.
